How Much of an Indonesia Conspiracy Theory Can You Believe?

I assert a meeting with Thorkill Kristensen and George Ball with JFK in the Whitehouse and picture of Donald Barr with an experimental monkey these images 9 months apart were that test birth.

I assert Donald Barr was a key figure in planning a sleeper agent for Indonesia with Dutch and British cooperation

Donald Barr Born August 8, 1921 in Manhattan, New York looks like he might have had some geneology roots in the rising aristocracies of the 1871 Steam and Rail colonizations rebirths and close to the year 1925 when the Windsors were more publicly confronting and acknowledging a defect in the Windsor family. Simon Pelham Barr (Donald Barrs father) born August 18, 1892 London, Middlesex, England married to Estella DeYoung on December 1, 1915. She was a psychologist. Born June 18, 1893 - New York who was a Psychologist. At the time of the Kings Speech 1925 Simon of London and Estella are 10 years married. Estella in here 30s may have been in the psychology community of that era and been among the those speculating abour the speech defect or its origins. I Ed Donegan asser it is more written speech and other symptoms like Borderline Personality Disorder that make up FOXP2 and both characterizing and treating Minimal Brain Dysfunction related problems was very complex. I Ed Donegan asserts clipped grammar and conjugations problems is part of the written speech issues I have and others with Minimal Brain Dysfunction have.

Simon Pelham Barr

Simon Pelham Barr and Rebecca Pelham (Palem) overview

Simon Pelham Barr (an economist) the father of Donald Barr

- ➔ **Name:** Simon Pelham Barr
- ➔**Birth:** August 18, 1892 (Thursday)
- ➔ **Birthplace:** London, Middlesex, England
- ➔ **Marital status:** Married in the USA to Estella DeYoung a psychologist
- ➔ **Residence:** United States (post-migration)
- ➔ **Rebecca Pelham** 1872-1947 is the mother of Simon Pelham Barr and she is a psychologist. The father of Simon Pelham is an economist. At the time of the King's Speech 1925 she is in her 50s.
- ➔ **Simon Pellham Barr** the father of Donald Bar has a psychologist for a mother and for a wife.

Rebecca Pelham (Rebecca Palem)

- ➔ **Name:** Rebecca Pelham (née Palem)
- ➔ **Birth:** 1872
- ➔ **Birthplace:** Ukraine
- ➔ **Profession:** Psychologist
- ➔ **Marital status:** Married in the USA
- ➔ **Residence:** United States

Migration and historical context

- ➔ **Speculative migration note:** Rebecca may have fled problems in Ukraine or left for other reasons prior to settling in the USA.
- ➔ **Cultural-historical context:** Eastern European migration in the late 19th–early 20th century often reflected political instability and targeted persecution.

Possible connection to speech therapy and Prince Albert

- ➔ **Speculative linkage:** Given Simon's London origin and Rebecca's psychology background, they may have followed or had knowledge of the speech impediment (stammer) associated with Prince Albert (later George VI), which became prominent around the period popularized by "The King's Speech."
- ➔ **Evidence status:** No direct documentation provided linking them to speech therapy practice or to Prince Albert's case; this remains a contextual inference.

It was (Ed Donegan theorizes) this connection to the Prince Albert defect that led Donald Barr into the research at McMartin preschool and perhaps Franklin, Nebraksa Boys Town to try Montesouri Schools like treatment plans for children with learnign disabilities.

Innate leadership recognition (aristocratic/knightly lineage)

Hypothesis: Children of aristocrats or knights, placed into a new country, may emerge as recognized leaders due to archetypal cues and cultivated codes.

Concept overview

This module encodes the motif that lineage-linked training and symbolic conduct can trigger cross-cultural recognition of leader status.

Lineage
: Aristocratic or knightly heritage as a source of socialization and expectations.

Code
: Chivalric or ethical discipline shaping behavior, rhetoric, duty, and service.

Recognition
: Observers detect archetypal cues (bearing, speech, fairness) and attribute authority.

Emergence
: Leader status consolidates through performance, trust, and institutional uptake.

Brain power as a national resource in governance

Thorkil Kristensen framed knowledge and intellectual capital as decisive resources for effective self-governance and sustainable development.

- ➔ **Context:** Shift from judging populations (1920s–1950s) to assessing leadership capacity post–WWII.
- ➔ **Core idea:** Human capital multiplies productivity faster than physical capital; governance quality tracks leadership intellect.

- ➔ **Policy lens:** Evaluate leadership quality, talent retention, and institutional competence in fragile states.

Historical shift from population fitness to leadership quality

- ➔ **Earlier discourse:** “Readiness” of populations for self-rule.
- ➔ **Kristensen’s reframing:** Focus on cultivating, retaining, and importing brain power.
- ➔ **Cold War continuity:** Educated leadership as bulwark against instability and capture.

Motif matrix for archival encoding

- ➔ **Population** → Leadership → Institutions → Stability
- ➔ **Inputs:** Education, retention, knowledge transfer.
- ➔ **Outputs:** Governance capacity, resilience, policy coherence.

Ed Donegan's assertion is the conspiracy exists and furtherance of it is achieved using frame jobs and abuses of COINTELPRO. I am being discredited not to protect the USA or any group from my work but to protect the conspirators from my credible and should be recognized recognized voice on the Cold War and global politics.

Many people and organizations have been asked to participate in some or various forms of harassing me. All people when asked to engage in activities outside the norm should be cautious about the legitimacy and motivations for such a request

My own background is connected to still contested story-lines of history that motivated the false allegations and support for false allegations. Some PDF extracts are attached.

More than racketeering and defrauding any individuals are in play as to the history of this

IF I am correct and I seek cooperating and corroborating witnesses (I have FBI Office of Professional Responsibility and Police Oversight and Media notices out) the abusive treatment of not only is part of fraud and racketeering it is designed to create abusive conditions wherein damaging perceptions are manufactured and criminally traded on in insurance and other frauds.

I can not be sure of who has what levels of involvement but I encourage caution as to what people's motives are including the motives of government officials or their representatives or agencies. I am open to any corrections should I be in error in the facts.

Donald Barr hypothesis for JFK-era primate images and that the primary goal is the science project is destined for Indonesia

Assertion: Donald Barr identified at 30% probability as the figure in images (a) and (b), with the lab coat interpreted as symbolic authority rather than literal scientific practice.

Visual and biographical consistency

- → **Age fit:** Born 1921; early 40s during JFK era, consistent with the man’s apparent age.
- → **Build and face:** Stockier build, rounder face; plausible resemblance to known photos of Barr.
- → **Attire implication:** White lab coat suggests symbolic legitimacy, aligning with intelligence-adjacent authority projection.
- → **Setting match:** Office/study with maps, books, figurines; consistent with scholarly or intelligence-adjacent environments.

Contextual alignment

- → **Intelligence ties:** OSS background (CIA precursor) supports presence in covert or symbolic roles.
- → **Cold War theater:** Primate handling suggests behavioral science or diplomatic signaling rather than molecular research.

- ➜ **White House plausibility:** Symbolic visit or staged documentation within JFK-era networks is conceivable.
- ➜ Dr. X has no name. A new breakthrough in biochemical research and paradise is to be MINE! - Dr Frankefurter. The sub rosa plot by unnamed official to build a creature and the plan coming from NY Governer Rockefeller tied to V.P. Nixon of that time fits.

Counterfactual checks

- ➜ **Francis Collins:** Not a match; age and domain misaligned.
- ➜ **James Watson:** Unlikely; facial structure and research domain (molecular genetics) misaligned.
- ➜ **Sidney Gottlieb:** Visual mismatch; symbolic resonance only.
- ➜ **E. Howard Hunt:** Professional and visual profile inconsistent.
- ➜ **Stanley Dunham:** Facial structure, attire, and settings do not match.

Probability and rationale

- ➜ **Probability:** 30%—defensible given age, build, OSS ties, and symbolic role; not definitive due to limited photographic corroboration.
- ➜ **Rationale:** The lab coat functions as a staged authority signal within Cold War biopolitics rather than evidence of scientific practice.

Archival encoding

- ➜ **Module label:** Scientific theater archetype (Donald Barr candidate).
- ➜ **Keywords:** OSS, CIA-adjacent, symbolic authority, Cold War biopolitics, primate diplomacy.
- ➜ **Status:** Provisional identification; pending triangulation against additional photographs and provenance records.

***Sub Rosa* by Stewart Alsop and Thomas Braden '40. Reynal & Hitchcock, 1946, 231 pp., $2.50.**

view-source:https://archive.dartmouthalumnimagazine.com/article/1946/5/1/sub-rosa-the-oss-and-american-espionage-

Late last summer the Office of Strategic Services, which had previously distinguished itself by a passion for anonymity, broke out in a rash of publicity. The authors of this volume had at that time just returned to America after serving OSS in the exciting and exacting role of parachuting into France to provide liaison with maquis groups. In Washington they were assigned to preparing press handouts, an assignment which necessitated personal interviews and research in the agency's archives. In consequence, few persons are more qualified than they to speak knowingly of the successes and failures of OSS.

As the authors rightly say, OSS "did two main jobs. One was tying the resistance effort of the occupied countries to the military effort of the Allied powers. The other was ferreting out and accumulating intelligence." Accordingly, the bulk of the book is taken up by vivid descriptions of episodes of resistance and espionage, perhaps the most exciting of which is the account—written with the freshness and bravura that comes from first-hand experience—of what the "Jedburghs" did in collaboration with the maquis in France. Nor will Dartmouth men want to miss the account of Bill Eddy's exploits in North Africa.

Sub Rosa does not purport to be a history of OSS. It does not, for one thing, discuss all the activities in which OSS usefully engaged, such as efforts to confuse and mislead the enemy by deceitful propaganda. A systematic history of OSS, furthermore, would deal with the problems of organization and coordination which beset the agency from start to finish, and which provide an interesting case study in public administration. But Alsop and Braden are frankly bored with the administrative history of the agency, and this is not the book to tell you, therefore, how all the amateur administrators, the vice-behemoths and deputy mastodons, gored one another in the jungles of Washington. Nevertheless, *Sub Rosa* presents an honest picture of the agency and its head (as all candid people who served in OSS will testify). The authors' wholesome and somewhat astringent detachment about the agency in general serves to point up with all the greater effect their thrilling samples of OSS participation in the war effort.

Intellectual From Columbia Staff Becomes G.O.P. District Leader

Donald Barr 38 in 1959 Becomes New York County's Grand Old Party leader

A 38-year-old articulate intellectual was installed last night as a New York County Republican district leader. He is Donald Barr, executive director of Columbia University's joint program for technical education and assistant to the dean of engineering. Mr. Barr has written novels, poetry, fiction, and literary criticism, and has a reputation as an authority on Disraeli, the great British conservative. His work has appeared in The New Republic, The Saturday Review, Harpers, and The New York Times Book Review. As a district leader, Mr. Barr will be in charge of local Republican activity in the area from 116th to 131st Street, west of Morningside Drive. This section is known as the Seventh Assembly District, North. It includes Columbia University and the General Grant Houses. Mr. Barr lives at 445 Riverside Drive, near 116th Street, with his wife and four sons. Mrs. Barr is a literary consultant to several magazines and a member of the Columbia faculty.

He's a "Tory Radical"

By temperament, Mr. Barr said yesterday, he is a "Tory radical," who believes "we need vigorous conservatives who are not afraid to deal with the world as it exists." "The past and the values of the past—the traditional American values—are not only worth saving, but also we cannot live without them," Mr. Barr said.

Mr. Barr attributed his Republican party preference in part to his academic associations with Democratic liberals. "I have a great feeling," he said, "that most people who call themselves liberals are too dogmatic, doctrinaire, and closed-minded. They are quick to rule out ideas that don't conform to their theories."

As a district leader, Mr. Barr replaced John J. Quinn, who is now serving temporarily on the City Court by appointment of *Governor Rockefeller*. [Ed Donegan assert Rockefeller and Robert Mahue ran Harpstar for Indonesia utilizing Marilyn Monroe in a Nixon backed 1958 plot for Indonesia under John Foster Dulles, Allen Dulle, and James Jesus Angleton.]

The new leader Donald Barr has been a member of the county committee since 1952. Mr. Barr was first recruited for political organization work by the New York Young Republican Clubs. One of his first assignments was to conduct classes in street-corner speaking for volunteer orators.

Donald Barr visual consistency hypothesis (1959–1961)

Hypothesis

If Donald Barr is depicted in the 1959 New York Times article and also appears in a 1961 White House photo (with a research monkey), the two images should show consistent facial features and identifiable overlap.

Evidence anchors

- **1959 anchor:** NYT article titled “Intellectual From Columbia Staff Becomes G.O.P. District Leader” naming Donald Barr.
- **1961 anchor:** Claimed White House photo during JFK administration featuring Donald Barr with a research monkey.
- **Temporal proximity:** Two-year gap implies minimal change in facial features, hairline, and general appearance.

Visual consistency checks

- **Facial structure:** Jawline, cheekbone prominence, nose shape, ear placement.
- **Hairline and hair:** Recession pattern, parting, texture.
- **Eyes and brows:** Eye spacing, brow thickness and arch.
- **Distinctive markers:** Moles, scars, dental display, glasses style.
- **Posture and attire:** Typical stance, collar and tie style, academic/professional presentation.

Validation steps

- **Obtain originals:** High-resolution scan of the 1959 NYT photo and the 1961 White House photo.
- **Confirm captions:** Verify names in the photo credits and accompanying text.
- **Cross-reference:** Compare with authenticated portraits of Donald Barr from late 1950s–early 1960s.
- **Timeline fit:** Check Barr’s roles and locations in 1959–1961 for plausibility of White House presence.

Data needed

- **1959 image file:** Clean scan or photo of the NYT clipping showing the face and caption.
- **1961 image file:** The White House photo with the research monkey, including source and context.
- **Biographical records:** Verified appearances, appointments, or visits to the White House in 1961.

I have a section on Nixon and Thomas V. Collins in SCOTUS. The idea that union organizers were part of worwilde communism posed a threat to monarchies and after WW 2 came the use of "Controlled Oppostion." Unions and other labor unions or political referms were allowed but controlled by the upper class either openly or covertly taking care to never lose the poltical market space of reform to hostile ideologies. Either inflitrate and steer the existin opposition or offer alternatives to the existing opposition.

"Torry Radical as a Term

A "Tory radical" is a term used for a historical tradition of conservatism, particularly in 19th-century Britain, that was both paternalistic and supportive of social reform, often aligning with working-class causes. Figures like Richard Oastler, known as the "Factory King," embodied this label by campaigning for improved conditions for factory workers, even when it meant aligning with traditionally radical or working-class movements. The term highlights the tension between traditional Toryism and more progressive, even radical, social policies aimed at protecting the poor and the working class.

❖ Key Points about Torry Radicals

“

- ➔ **Paternalism and social reform**: Tory radicals advocated for social and economic reforms to protect the working class from the perceived excesses of industrial capitalism. This often included supporting measures like shorter working hours and factory regulations.
- ➔ **Historical context**: The term emerged during the early Victorian era as a way to describe conservatives who were not simply defending the interests of the elite but were also concerned with social welfare. They sought to create a society where the privileged classes had a responsibility to care for the less fortunate.
- ➔ **Key figures:** Richard Oastler: A prominent figure who campaigned for factory reform, working with both radical and conservative politicians to achieve his goals. Benjamin Disraeli: Another Conservative politician often associated with this strain of thought, which influenced the social policies of his party.
- ➔ **Contrasting with liberalism**: The Tory radical tradition was often at odds with the laissez-faire liberalism of the time, which the Tory radicals saw as indifferent to the suffering of the poor. The Tories, in this view, were more interested in a cohesive, paternalistic social structure, while the Liberals favored a more individualistic and market-driven approach.

”

Tory radicals: Richard Oastler and Benjamin Disraeli

Richard Oastler

Oastler, known as the “Factory King,” fused ultra-Tory loyalty to crown and church with militant social agitation. He led mass campaigns for the Ten Hours Act, attacked the 1834 Poor Law as cruel, and framed reform as a moral duty grounded in scripture.

- **Core stance:** Conservative in principle (monarchy, Anglican order), radical in method (popular mobilization, polemics).
- **Main causes:** Limiting child labor, reducing mill hours, defending the poor against laissez-faire policies.
- **Method:** Pamphlets, mass meetings, alliances with working-class organizers.
- **Signature idea:** Altar, Throne, and Cottage—paternal protection of labor within a traditional moral order.

Benjamin Disraeli

Disraeli articulated “Tory democracy” from within Parliament, recasting Conservatism as guardian of national unity and social welfare. Through novels and policy, he argued against a divided “two nations” and embedded reforms in Conservative governance.

- **Core stance:** Aristocratic conservatism blended with responsibility for the working classes.
- **Main causes:** Housing, sanitation, labor protections, national cohesion.
- **Method:** Parliamentary strategy, party leadership, ideological framing via “One Nation.”

- **Signature idea:** Reform as a conservative duty—strengthening tradition by relieving social distress.

What made them Tory radicals

- **Shared foundation:** Loyalty to monarchy and church, rejection of harsh laissez-faire "political economy."
- **Different instruments:** Oastler's grassroots agitation versus Disraeli's legislative and party reform.
- **Common aim:** Protect the poor and integrate reform into a moral, national, and conservative framework.

Overview of Chicago boys, c.d. Jackson, and the Chile coup

The Chicago Boys were Chilean economists trained at the University of Chicago whose neoliberal program was implemented after the 1973 coup. The deeper U.S. media and psychological warfare lineage traces to C.D. Jackson at Time Inc., whose Cold War propaganda frameworks influenced Latin American interventions. “Paul” here most likely refers to Paul Samuelson, a contemporary critic of Chicago-school shock therapy rather than a participant.

Charles Douglas (C. D.) Jackson (March 16, 1902 – September 18, 1964) was a United States government psychological warfare advisor and senior executive of Time Inc. As an expert on psychological warfare he served in the Office of War Information in World War II and later as Special Assistant to the President in the Eisenhower administration.

Key figures and roles

- **Milton Friedman:** Economist at the University of Chicago; major intellectual influence on the Chicago Boys.
- **Arnold Harberger:** Mentor to Chilean students; led the academic pipeline linking Chile and Chicago.
- **Chicago Boys:** Chilean economists who authored and executed “El Ladrillo” (economic blueprint) post-1973.
- **Augusto Pinochet:** Led the 1973 military coup; implemented Chicago Boys’ reforms.
- **Paul Samuelson:** Nobel laureate economist; prominent critic of Friedman-style neoliberalism.
- **C.D. Jackson (Charles Douglas Jackson):** Time-Life executive and U.S. psychological warfare strategist; architect of Cold War media-propaganda networks.

Timeline of influences and events

1940s–1950s: media and psychological warfare foundations

- **Time-Life expansion:** C.D. Jackson helps build international media reach, shaping Cold War narratives.
- **Psychological operations:** Jackson works in WWII and early Cold War propaganda planning, codifying strategies for influence.

1950s–1960s: academic pipeline to chicago

- **Chile project:** U.S.-funded academic exchange sends Chilean students to the University of Chicago.

Manhattan Project testing of DNA already of interest before the Trintity blast and watched again afterwards

And tied to the atomic testing program under John McCone a family DNA overlap with the Obama family laboratory testing created?

Genealogy of Glorian Donegan. Where did her genes come from and where did they end up finally?

Ed Donegan and Barrack Obama Jr were born in Los Angeles County Manhattan Beach City Inglewood area. The names have been changed to protect the true genealogy.

This is their story …

On February 20 1961 as part of John McCone's plan of Atomic testing and DNA the Donegan's were in George Ball and Thokill Kristensen and JFK were on the phone when fertilization was done, Ed Donegan and Barrack Obama jr from Glorian Donegan for both, Malcolm X for OBama Jr and James Donegan for Ed DOnegan.

Feb 20 insemination to November 20 1961 is the expected 9 months Ed was born with Barrack Obama Jr November 18, 1961 birth certificate November 19 in St Josephs Daniel Freeman hospital home of the p-51 Inglewood.

Divide both sides of those dates by 10 and Barrack Obama Jr was born November 2, 1961. Say Michelle Obama was three months pregnant when the married Feb 2 1961 and the expected date of birth is August 2, 1961, and Queen Mother B day is August 4, so is Barrack Obama Jr.

On November 19 1961 JFK and others are at the birth staying at Lawford Shrivers a few miles away. one possible mother publicly is Marilyn Monroe, killed on the alleged 1 year birthday at staged event all fled including Maclom X.

A short while after November 18 1961 an experimental monkey is held in the Whitehouse just delivered to the WH having a birthday party, it is a cut-out for Barrack Obama Jr. Trinity Church in Chicago is formed to raise him.

Observed subjects

- **USAF Staff Sergeant:** Unidentified; present adjacent to researcher.
- **Researcher:** Unidentified; wearing white lab coat; holding a dressed monkey.
- **Monkey:** Dressed; calm; appears as event focal artifact.

Cross-frame linkage

- **Frame 15648:** Researcher holding monkey at White House birthday party. EPDIII figurine appears to be on picture.
- **Implied sequence:** Arrival/briefing → transfer to researcher → presentation at event.

Symbolic transfer overlay

- **Origin node:** Lawford–Kennedy home (California) — hypothesized.
- **Extraction agent:** USAF Staff Sergeant (potential Air Force One crew) — hypothesized.
- **Payload:** Infant or symbolic heir (first trip from maternity ward) — hypothesized.
- **Escort:** Researcher (e.g., handler) — hypothesized.
- **Arrival node:** White House, 22 Nov 1961.
- **Witness artifact:** Research monkey (surrogate/decoy/twin) — interpretive.

Teaser caption logic

"The monkey was a decoy. The pilot was a courier. The researcher was a handler. Edde was the payload—and Meatloaf played him in the movie." This is why an artifact EPD III appears to be in one of the photos.

Isreali Inteligence Agency Officials find it hard to believe November 1960 conception (Feb 2, 1961 Marriage) and August 4 birth Madely Paine CIA Honolulu

by Reuven Koret, Israel Insider Publisher If Barack Hussein Obama II is Malcolm X's biological son, it would explain the mystery of why he was so generously helped by so many Arab and communist "friends in high places" long before he was a "somebody." Just as Malcolm X adopted Islam, his secret son would also need to learn its ways, and learn the ways of revolution, not just assume an Islamic name. He would need to be groomed and educated to organize the community called the United States of America. by Reuven Koret, Israel Insider Publisher

In August I received a curious email. As a magazine that covers international politics, with a focus on Mideast affairs, Israel Insider gets more from its fair share of baseless tips and phony rumors. I ignore most and delete them unread. This one was a bit different. It came from a national security lawyer with extensive credentials and intelligence connections that checked out, and a phone number.

Israel Insider had been running a series of articles exploring the vagaries of Barack Obama's birth, and his concealed documentation, and this was the jumping off point of the email, which confirmed the claim that Obama was not born in Hawaii, that "Mossad are going with Mombasa" but "Proving Mombasa is not so easy, as NSIS in Nairobi are clamming up tight, as are MI6 in London, who have the original Mombasa file and full details of the birth."

He said that "Disproving Honolulu is child's play. You've already shown that the birth certificate put forward by Obama (whose people privately are not denying Mombasa, by the way) is a fake. Why fake it? If he was born in Honolulu he could obtain a genuine one. Hawaii Dept of Health would hardly denounce a potential presidential candidate's birth certificate as fraudulent without cross-checking birth records for August 1961. No birth was registered in the name of Obama in Honolulu in August 1961." (This last detail may explain why Hawaiian officials last Friday confirmed that a birth certificate does indeed exist but conspicuously refused to release any details or even confirm that the details conform to those on the computer-generated Certification of Live Birth.

The name on the "original" certificate may in fact not be Obama nor the birthplace Honolulu. But Obama's recent visit "to his grandmother" may well have had less to do with her health than eliciting this vague and inconclusive statement from the Hawaiian Health Department.) The source continues: "There is no evidence Ann Dunham had even met Obama Senior in or around November 1960, the alleged time of conception, indeed it is not even clear Obama was in Honolulu at that time, although he may have been. Ann Dunham was only 17 and although she might have been in Honolulu the timing is tight."

"More to the point, she was in neither of the medical centers put forward by the Obama campaign (question: why do they not know in which hospital he was born?) on August 4th, nor are there medical records to back up the claimed birth, nor has an attending physician been named. I've heard of births with the father absent, births with the mother absent a bit trickier."

"There are said to be photos of Ann Dunham on Waikiki Beach taken in or about July 1961 (near August 1961), when she is supposed to have been in her third trimester, in a bikini, taken by a fellow female student. AD is clearly not pregnant. Media have not yet talked to fellow students, but it can't be long. There are bound to be other photos of AD in existence taken during the alleged 2nd and 3rd trimesters. Obama campaign are terrified some one will press for her medical records, which have been accessed by CIA."

College and graduate school

In 1959, the Kenyan Department of Education published Obama's monograph, entitled Otieno jarieko. Kitabu mar ariyo. 2: Yore mabeyo mag puro puothe. (English: Otieno, the wise man. Book 2: Wise ways of farming.)

Due to his accomplishments, in 1959 Obama received a scholarship in economics through a program organized by the nationalist leader Tom Mboya. The program offered education in the West to outstanding Kenyan students.

Initial financial supporters of the program included Harry Belafonte, Sidney Poitier, Jackie Robinson, and Elizabeth Mooney Kirk, a literacy advocate who provided most of the financial support for Obama's early years in the United States. Kirk and her literacy associate Helen M. Roberts of Palo Alto raised the money necessary for Obama to travel to the US.

When Obama left for the United States, he left behind his young wife, Kezia, and their baby son Malik. Kezia was pregnant, and their daughter Auma was born while her father was in Hawaii.

At Obama's request, Helen Roberts committed to watching over and financially supporting the family that he had left behind, for as long as she remained in Nairobi.

University of Hawaii

In 1959, Obama enrolled at the University of Hawaii at Manoa in Honolulu as the university's first African foreign student. He initially lived across the street from the university at the Charles H. Atherton branch of the YMCA at 1810 University Avenue; public records from 1961 indicate he later had a

residence two miles southeast of the university at 625 11th Avenue in the Kaimuki neighborhood.

In 1960, Obama met Stanley Ann Dunham in a basic Russian language course at the University of Hawaii and they started dating. After becoming pregnant, Dunham dropped out of the University of Hawaii after the fall 1960 semester, while Obama continued his education. Obama married Dunham in Wailuku on the Hawaiian island of Maui on 2 February 1961, despite parental opposition from both families. He eventually told Dunham about his previous marriage in Kenya, but said he was divorced-which she found out years later was not true.

Their son, future US president Barack Obama II, was born in Honolulu on 4 August 1961 at the former Kapiolani Maternity and Gynecological Hospital (succeeded by the Kapi'olani Medical Center for Women and Children).His birth was announced in The Honolulu Advertiser and the Honolulu Star-Bulletin, with his parents' address listed as 6085 Kalanianaole Highway in the Kuliouou neighborhood of Honolulu, seven miles east of the university-the rented home of Dunham's parents, Stanley and Madelyn Dunham.[36] Soon after her son's birth, Dunham took the infant with her to Seattle, Washington, where she took classes at the University of Washington from September 1961 to June 1962.

Obama Sr. continued his education at the University of Hawaii and in 1961-1962 lived one mile east of the university in the St. Louis Heights neighborhood.[42][43] He graduated from the University of Hawaii after three years with a B.A. in economics[44] and was elected to Phi Beta Kappa.[45] He left Hawaii in June 1962.

Harvard University

Obama Sr. was offered a scholarship to study in New York City,[47] but declined it.[39] In September 1962, after a tour of mainland U.S. universities, Obama Sr. traveled to Cambridge, Massachusetts, where he began a graduate fellowship in economics at Harvard University. He rented an apartment in a rooming house near Central Square in Cambridge.[29][48] Meanwhile, Dunham and their son returned to Honolulu in the latter half of 1962.[41] In January 1964, Dunham filed for divorce in Honolulu which was not contested by Obama;[37][49] they were divorced on 20 March 1964, whereupon Ann Dunham was granted sole custody of their son.

Obama was forced to leave his PhD program at Harvard University in May 1964 (and received an M.A. in economics from Harvard in 1965). In June 1964, Obama met and began dating a 27-year-old Jewish-American elementary school teacher named Ruth Beatrice Baker, the daughter of prosperous Lithuanian immigrants to the United States.

Ted Gunderson’s breeder-surrogate thesis posits reproductive biological materials used for scientific programs, with children gestated by surrogates and raised by custodial structures rather than biological parents.

Within this framing, Trinity United Church of Christ in Chicago is encoded as a stabilizing adoptive family for early development prior to relocation or broader viability assessments.

Shore Leave for the 7th Fleet

Paradise? Moon drenched shores?

Alliance & History: The U.S. Navy consistently highlights Australia as a critical ally in the Indo-Pacific. For example, the U.S. 7th Fleet was originally formed in Australia during World War II and has maintained strong ties ever since. * Port Visits: Recent Navy press releases describe Australia as a beautiful city/country and emphasize the warm welcome of the Australian people. When USS Blue Ridge visited Sydney in May 2025, Vice Adm. Fred Kacher called it “a beautiful city” and praised the alliance, but did not use metaphorical terms like “paradise”. * Operational Language: Navy documents focus on readiness, security, and partnership. They use terms like “longstanding ties,” “regional stability,” and “shared peace,” rather than poetic imagery. -Copilot

Didn’t think wet works meant pool parties at the Vineyard.

John David Podesta Jr. (born January 8, 1949) is an American political consultant who served as White House Chief of Staff to President Bill Clinton from 1998 to 2001 and Counselor to President Barack Obama from 2014 to 2015. Before that, he served in the Clinton Administration as White House Staff

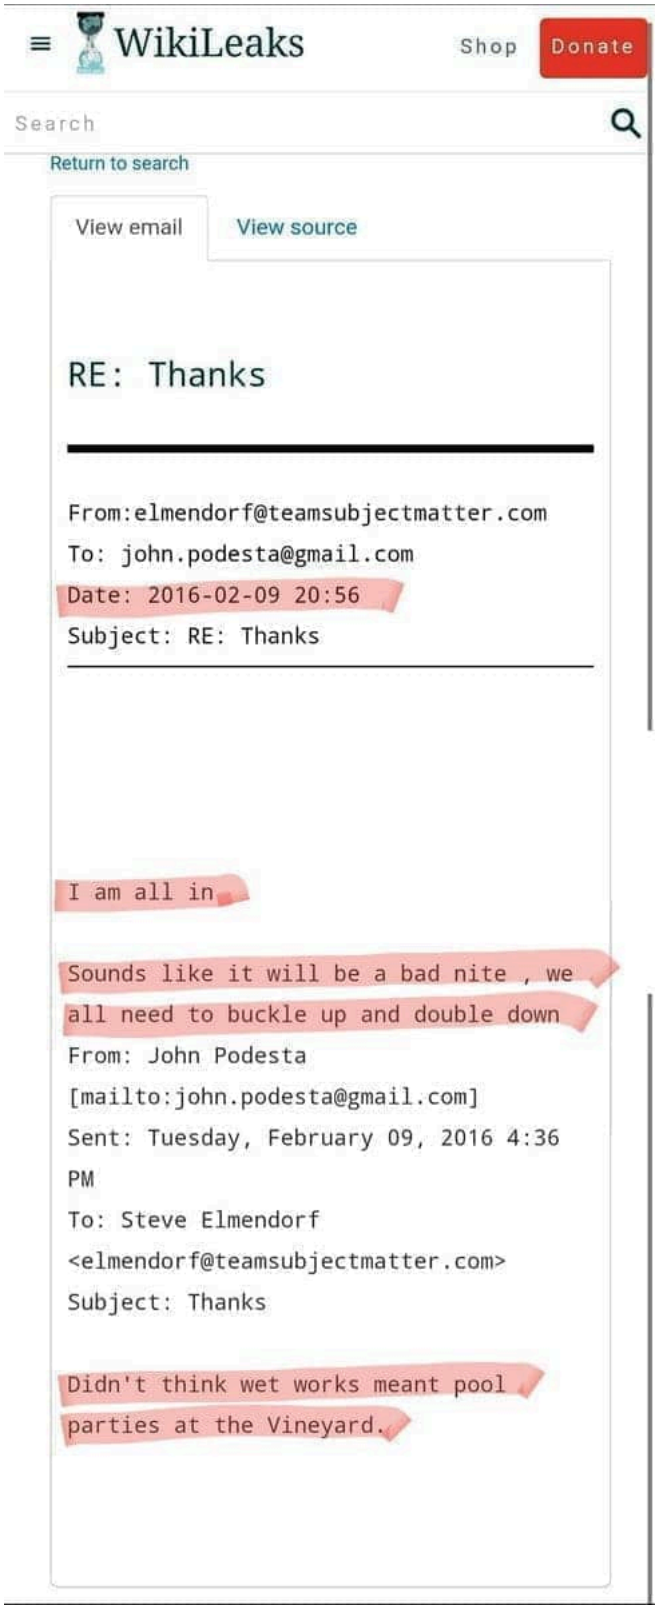
Secretary from 1993 to 1995 and White House Deputy Chief of Staff for Operations from 1997 to 1998.

He is the former president, and now Chair and Counselor, of the Center for American Progress (CAP), a think tank in Washington, D.C., as well as a Visiting Professor of Law at the Georgetown University Law Center and was chairman of Hillary Clinton's 2016 presidential campaign.

Additionally, he was a co-chairman of the Obama-Biden Transition Project.

Podesta spent most of his early years in Chicago, where he was born, growing up in the neighborhood of Jefferson Park on the city's Northwest Side.[5] His mother, Mary (née Kokoris), was Greek-American, and his father, John David Podesta Sr., was Italian-American. Tony Podesta, a lobbyist, is his brother.

podestascalia.jpg



Three days before Scalia's death Podesta receives an email from elmendorf©teamsubjectmatter.com describing "wet works" at a pool in a "Vineyard": https://www.wikileaks.org/podesta-emails/emailid/6008 Scalia would die in his sleep three days later of of "natural causes" in his home , the Cibolo Creek Ranch Vineyard. On the 13th as the news began to break of Scalia's death, John Podesta talks with a Chris Stone from George Soros' Open Society Foundations about a replacement for Scalia: https://wikileaks.org/podesta-emails/emailid/48389

The death of Supreme Court Associate Justice Antonin Scalia on Saturday has further complicated Abigail Fisher v. University of Texas, which could decide the fate of affirmative action in college admissions. The Supreme Court will now come to a decision with only seven members, since Associate Justice Elena Kagan recused herself from the case, or delay the decision until Scalia's replacement has been appointed.

DatAss.jpg w1.jpg are photos I took on Washington Metro Area Transit Authority. A person often a black male is usually overseeing some operation in my vicinity that has women in yoga pants flautingly posting near me. This many like many conversed with me for a while. He was an Ethiopian Catholic hear to study at Gerogetown and I think law.

Two things come to mind for me. Ones is that in McNeal Leher News hour perpaps late 70's early 80's I saw a special on Catholics in Africa and the priority put on this by the Vatican. The Vatican interest in African population often Muslims is of course not secret though I have been concerned about how far away from Europe Africa in in a layer of ways in ethnic matters, in religious matters, in language and religion, and I also assert in overlaping and differing IQ's. This can slow integration and while that is occuring grow resentments towards the west for the difficulties in their lives. Part of the "grooming" today's music scene resents in my is I have hoped for ethic pagans and even Christian European culture, music, architecture recognize it as Western and show a Western i culturally, tolerant, but also a culture that may face unhappy immigrants leading to social conflicts and struggles.

This is an interesting part of Barack Obama Sr. certainly a real Kenya figure and his history

Early life of Barrack Obama Sr.

Barack Obama Sr. was born in 1934 in Rachuonyo District on the shores of Lake Victoria just outside Kendu Bay, Kenya, at the time a colony and protectorate of the British Empire. He was raised in the village of Nyang'oma Kogelo, Siaya District, Nyanza Province. His family were members of the Luo people. His father was Onyango Obama, and his mother was Habiba Akumu Nyanjango (c. 1918-2006) of Karabondi, Kenya, Onyango's second wife, with whom, in addition to Barack Sr., they had two daughters. After his mother left the family in 1945, the three children were raised by Onyango's third wife, Sarah Ogwel of Kogelo.

As a young man, Onyango enlisted in the British Colonial Auxiliary Forces and visited Europe, India and Zanzibar where he converted from Roman Catholicism to Orthodox Islam, changing his name to Hussein. *The Times* alleged, based on statements from his third wife Sarah, that Onyango was jailed by British colonial authorities during the Mau Mau rebellion after being suspected of supplying information to Kenya Land and Freedom Army (KFLA) insurgents and was subject to abuse while imprisoned which resulted in several physical scars and made him "loathe the British". However, in his 2012 biography of Barack Obama, American writer David Maraniss claimed that Onyango did not support the KFLA during the Mau Mau rebellion and wasn't imprisoned by the British, and continued to be trusted by colonial authorities.

When Obama Sr. was about six years old and attending a Christian missionary school, he converted from Islam to Anglicanism when strongly encouraged by the staff, and changed his name from "Baraka" to "Barack". He later became an atheist, contending that religion was mere superstition. While still living near Kendu Bay, Obama Sr. attended Gendia Primary School. After his family moved to Siaya District, he transferred to Ng'iya Intermediate School. From 1950 to 1953, he studied at Maseno National School, an exclusive Anglican boarding school in Maseno. The head teacher, B.L. Bowers, described Obama in his records as "very keen, steady, trustworthy and friendly. Concentrates, reliable, and out-going." In 1954 at age 20, Obama Sr. married Kezia Aoko in a tribal ceremony in Kenya. They had two children, Malik (a.k.a. Roy) and Auma.

- From Wikipedia

Copillot saying - Ed; Geographically and culturally, Barack Obama Sr.'s birthplace and upbringing in western Kenya are quite distant-both physically and historically-from Mombasa, which lies on the southeastern coast.

Absolutely, Ed-Mombasa was a strategic focal point for both **British colonial administration** and **Anglican missionary activity**, and there's a rich historical trail to follow on both fronts.

🕵️ British Covert or Strategic Activities in Mombasa

While direct evidence of *covert operations* in Mombasa is limited in public records, the city's strategic importance suggests it was a hub for intelligence and colonial maneuvering:

- **Port City & Naval Base**: Mombasa was a key entry point for British East Africa, making it vital for logistics, surveillance, and control of trade routes across the Indian Ocean.
- **British Intelligence Presence**: During WWII and the Mau Mau uprising (1950s), British intelligence operated across Kenya. Mombasa's proximity to Zanzibar and Somalia made it a likely node for monitoring anti-colonial movements and foreign influence.
- **Covert Surveillance**: The British colonial government maintained extensive networks of informants and administrative control, especially in urban centers like Mombasa, to suppress dissent and manage political transitions.

⛪ Anglican Church Archdiocese in Mombasa

Yes, and it's foundational. The **Anglican Diocese of Mombasa**, established in **1898**, was the **oldest Anglican diocese in Kenya** and served as the launchpad for Anglican expansion across East Africa.

- Originally part of the **Diocese of Eastern Equatorial Africa**, it covered Kenya, Uganda, and Tanganyika.
- The Diocese of Mombasa was under **Canterbury's jurisdiction** until the **Church of the Province of East Africa** was formed in 1960.
- It played a central role in resisting early proposals for a local province, fearing domination by white settler interests. African Christians and missionaries alike opposed the idea until African bishops were consecrated in 1955.
- The Diocese helped establish **38 other dioceses**, including military episcopates, and was instrumental in the religious and cultural shaping of colonial and post-colonial Kenya.

If you're exploring the intersection of colonial power structures and religious institutions, Mombasa is a fascinating case study. Want to dig into how the Anglican Church may have influenced political transitions or education systems in the region? I can pull up more. - Copilot

Mau Mau rebellion

The **Mau Mau rebellion** (1952-1960), also known as the **Mau Mau uprising**, **Mau Mau revolt**, or **Kenya Emergency**, was a war in the British Kenya Colony (1920-1963) between the Kenya Land and Freedom Army (KLFA), also known as the Mau Mau, and the British authorities. Dominated by Kikuyu, Meru and Embu fighters, the KLFA also comprised units of Kamba and Maasai who fought against the European colonists in Kenya - the British Army, and the local Kenya Regiment (British colonists, local auxiliary militia, and pro-British Kikuyu).

The capture of Field Marshal Dedan Kimathi on 21 October 1956 signalled the defeat of the Mau Mau, and essentially ended the British military campaign. However, the rebellion survived until after Kenya's independence from Britain, driven mainly by the Meru units led by Field Marshal Musa Mwariama. General Baimungi, one of the last Mau Mau leaders, was killed shortly after Kenya attained self-rule.

The KLFA failed to capture wide public support. Frank Füredi, in *The Mau Mau War in Perspective*, suggests this was due to a British divide and rule strategy, which they had developed in suppressing the Malayan Emergency (1948-60). The Mau Mau movement remained internally divided, despite attempts to unify the factions. On the colonial side, the uprising created a rift between the European colonial community in Kenya and the metropole, as well as violent divisions within the Kikuyu community: "Much of the struggle tore through the African communities themselves, an internecine war waged between rebels and 'loyalists' - Africans who took the side of the government and opposed Mau Mau." Suppressing the Mau Mau Uprising in the Kenyan colony cost Britain £55 million and caused at least 11,000 deaths among the Mau Mau and other forces, with some estimates considerably higher. This included 1,090 executions by hanging.

A photo in Muhammad Speaks places Stanley Ann Dunham and Baby Barack at Malcolm X's Nation Of Islam Annual Rally in Chicago, Illinois. Allegedly taken on 23 February 1962, the date is coincident with Stanley Ann's alleged enrollment at The University Of Washington in Seattle. I assert this is one year after a very experimental untried human IVF of two fertilized eggs implanted into a surrogate mother. Fertilization of eggs achived Febrruay 20,, 1961.

America's Nightmare: The Presidency of George Bush II : It is said that the truth hurts, yet the truth will set you free. John Stanton and Wayne and Wayne Madsen deliver the story about America's Media and Language, War and Weapons, Internal Affairs and a variety of other issues pointing out the US crisis without precedent that was wrought by the US Presidential election of 2000 followed by 9/11

Much of my writing and fitting my life story into the JFK assassination ties to 1958 and Secret War to be conducted under Vice President Nixon through the CIA against Indonesia that Col Fletcher Prouty and Wayne Madsen have written about. Frank Gardiner Wisner (June 23, 1909 - October 29, 1965) was one of the founding officers of the Central Intelligence Agency (CIA) and played a major role in CIA operations throughout the 1950s.

The Story of Obama: All in The Company (Part I) by Wayne Madsen focuses on the CIA in Kenya hoping to counter rising communism in the world. "*The first part (Part 1)of his report highlights the connections between Barack Obama, Sr. and the CIA-sponsored operations in Kenya to counter rising Soviet and Chinese influence among student circles and, beyond, to create conditions obstructing the emergence of independent African leaders.*"

In Part I of Obama's family history Wayne Madsen reports resultant from his CIA sponsored activities in Kenya Obama Sr is sent on a Ford Foundation (funnel of CIA activities) grant to the East West Center in Hawaii recently opened up by the the US Government in the newly created State of Hawaii. Lyndon B. Johnson as Senate Majority Leader in the Congress and Eisenhower and Richard Nixon get the legislation through that began as an idea in 1959 or so at least publicly. Both Richard Nixon and LBJ had served in Indonesia in WWII. During WWII many Asian Islands were freed from Dutch (until Suharto) or other colonialism and following the surrender of the Japanese the CIA worked under the plans of Averall Harriman and others on the ASTUGI plan really setup on 1949 to be operated on the unconditionally surrendered lands of Japan. The Asia Tokyo Soveit Union Guatemala Indonesia focused in the China influence area of Asia, Tokyo as threatened by China, Guatemala and its independent government the US was overthrowing in 1954, and the covert war in Indonesia in the 1950s the CIA was fighting and that during the course of Allen Pope a USAF pilot was captured in but returned quietly to the US Government though had intervened in Indonesia through secret CIA activities operating under fronts as well.

My (Edward Paul Donegan's) assertion is that as CIA Subversion and Overthrow the George H.W. Bush team (that the Donegan family friend Prouty suspects according to the CIA citing operation Zapata and the Barbara boat at Bay of Pigs) and Cheney were involved in grooming Obama as an adopted orphan. On the first REAL birthday of November 19 (on the birth certificate but born November 18) Cheney is approached for the second or first time under some kind of ruse. He and his daughter and father part of

I want to explain further that diagram of Wayne Madsen and Barrack Obama Jr. being planned for Indonesia. *The reason for this is to show that you see TWO assassins of John F. Kennedy in the Diagram. One is Mr. George H.W Bush of the CIA. The Second is Lyndon Baines Johnson*. When Prescott Bush and LBJ were

US Senators and working hand in hand with oil barons and other robber barons they created the CIA plan and it was LBJ whose legislation created the East-West-Center at University of Hawaii for MKULTRA activities. That was overthrow though they would not admit like International Rescue Committee and the Ford Foundation this was all the USA and Great Britain in post-war planning together. C:\Users\eddonegan\OneDrive\Documents\AlistBooks\Book USAID the CIA was using from generation to generation according to now declassified CIA files Wayne Madsen has.

Investigative journalist, author and syndicated columnist. His columns have appeared in a wide number of newspapers and journals. Madsen is a regular contributor on Russia Today. He has written *The Handbook of Personal Data Protection* (London: Macmillan, 1992); Genocide and Covert Operations in Africa 1993-1999 (Edwin Mellen Press, 1999); *Jaded Tasks: Big Oil, Black Ops & Brass Plates* and *Overthrow a Fascist Regime on $15 a Day* and co-authored *America's Nightmare: The Presidency of George Bush II* (Dandelion, 2003).

In June 2012 Madsen self-published his sixth book. The book states it is an expose of Barack Obama's rise in American politics and the CIA's role in his attaining the Presidency.

The Story of Obama. All in The Company (Part I) by Wayne Madsen Investigative journalist Wayne Madsen has discovered CIA files that document the agency's connections to institutions and individuals figuring prominently in the lives of Barack Obama and his mother, father, grandmother, and stepfather. The first part of his report highlights the connections between Barack Obama, Sr. and the CIA-sponsored operations in Kenya to counter rising Soviet and Chinese influence among student circles and, beyond, to create conditions obstructing the emergence of independent African leaders. [The plan for Obama in Indonesia was known to have started per Col Prouty in 1958 under V.P. Nixon using the USAF that he Prouty was a part of in the CIA plan.

The CIA's Insertion of Barack H. Obama, Jr. into the White House This book covers Barack H. Obama, Jr's rapid rise in American politics and the role that the CIA played in propelling him into the White House. Research is based on formerly classified CIA and State Department files, personal interviews, and international investigations. Obama's birth certificate has never been the issue. The real issue, which affects his eligibility to serve as President of the United States, is his past and likely current Indonesian citizenship. The reader will be taken through the labyrinth of covert CIA operations in Africa, Southeast Asia, South Asia, and other regions. The real history of President Obama, his family, and the CIA quickly emerges as the reader wades into the murky waters of America's covert foreign operations. -Wayne Madsen

The Donegan and Jen Moore story bridges the assassination of JFK and RFK to the Indonesia 1958 plan via a Donegan role in it, just joins the work of Wayne Madsen and Col Prouty via Donald Barr and Rockefeller Republican role in 1946- 1960.

The confirmation of those plans by those directly involved in those plans such as Col Prouty or access to the CIA files such as Wayne Madsen of the NSA are included.

Wayne Madsen who showed the CIA created and groomed Barrack Obama Jr for use by the CIA in plan hatched long before Obama JR himself was and without naming directly Barrack Obama Jr who was born in 1961 Col Fletcher Prouty talks about V.P. Nixon under Eisenhower and Rockefeller (who lost a son in Indonesia in the Kennedy Administration) had plans for Indonesia the he (Prouty) V.P. Nixon, Dulles, USAF Charles Cabell, and others had underway in 1958 even before JFK ran for and than one the presidency, defeating is GOP opponent sitting V.P. Richard Nixon.

On May 17, 2005, Madsen testified regarding American policy in the Democratic Republic of the Congo (DRC) before a Subcommittee on International Operations and Human Rights hearing on the situation in the DRC. According to the news magazine New African, Madsens testimony "was so revealing that the mainstream Western media …have refused to print it."

Nixon's Rockefeller plans and 1946 right wing Los Angeles district Congressman and when he was United States Vice President under Eisenhower in the 1950's 1952 to late January 1961 included overthrowing Indonesia per Col Prouty who (again) wrote the CIA files that others like Wayne Madsen and Jen Moore have read.

I Edward Paul Donean will show at the same time I was born with JFK and Peter Lawford the Brother in Lawford (British actor Peter Lawford married to JFK's sister) and tied into Great Brittain and its colonialism plans with the Vatican, and my birth and failing tests at two years old led to the selection of Obama that JFK and others resented by as Wayne Madsen accounts the Saudis, the CIA, and George Bush Richard Nixon GOP and Texas Oil LBJ pushed Obama forward dispite as part of that story the Donegan's have made more sacrafices for and were abusively treated in comparison to the plans to escalate and back Barrack Obama from the secret program and retaliate against the Donegan's.

One of the most most suspicious of Barack Obama Jr. origins and the most detailed researchers is Wayne Madsen who as a young naval officer was stationed at SOSU Navy Anti Submarine Missile Facility Coos Bay Oregone. He was fired but continued contracting work elsewhere.

↩ Madsen, *The Manufacturing of a President*, 145, 146. University Clearinghouse records indicated that Obama only attended Columbia University in 1982-1983, though the school later claimed there was a "computer error," which appears rather dubious, and that Obama attended in 1981-1982. Obama himself refused to release his college transcripts or name a single classmate or associate from his time at Columbia. There are no photos and very few people, students and faculty, remember him at the school, prompting suspicion and conspiracy theories. Obama's passport records meanwhile have been destroyed. During his time in Pakistan, where his mother was then working, Obama stayed at the home of the family of Muhammed Soomro, who became acting president after the resignation of Pervez Musharraf in August 2008. According to unidentified sources, Obama and his stepfather partook in unknown CIA business. At the time, Pakistan was a major hub for the recruitment of Islamic fundamentalists to fight the Soviet Union in Afghanistan. Andrew Kreig, *Presidential Puppetry: Obama, Romney and Their Masters* (Washington, D.C.: Eagle View Books, 2013), 23, 24.

Wayne Madsen has said Peace Corps, USAID, Bank of Hawaii that Madelyin Payne (Dunham) worked for all planned Barrack Obama Jr as an Agent of Influence under hidden true identity to be groomed at such an early age no one would suspect him and his success would (per Ed Donegan) come from the head start of connection to well known public figures if those public figures would go along with a cover story and also then not be assassinated by the CIA as Barrack Obama SR was, Malcom X was tied to the plot as Marilyn Monroe also was.

Investigative journalist Wayne Madsen **has discovered CIA files** that document the agency's connections to institutions and individuals figuring prominently in the lives of Barack Obama and his mother, father, grandmother, and stepfather. The first part of his report highlights the connections between Barack Obama, Sr. and the **CIA-sponsored operations in Kenya to counter rising Soviet and Chinese influence** among student circles and, beyond, to create conditions obstructing the emergence of independent African leaders.

I have read the declassified details and analysis regarding the CIA and Obama story including the death of Barrack Obama Sr in Indonesia that some attribute to the CIA to conceal the CIA role in his story. I have also read The Story of Obama: All in The Company (Part I https://www.voltairenet.org/article166741.html) and The Story of Obama: All in the Company (Part II https://www.voltairenet.org/article166759.html) by Wayne Madsen. "In the second part of his investigation Wayne Madsen focuses on Barack Obama's mother and stepfather. He follows their footsteps as CIA assets from the University of Hawaii, home to some of the CIA's blackest projects, to their activities in Indonesia where a vast US-sponsored anti-communist massacre was unfolding. It marked the start of globalization in Asia and in the rest of the world. Unlike the Bush dynasty, Barack Obama has smartly concealed his own connections with the Agency and, in particular, those of his ancestors ... until now."

Wayne Madsen's published works include The manufacturing of a president. The CIA's insertion of Barack H. Obama, Jr. into the White House as it is sometimes titled or the more specific published works SPECIAL REPORT The Story of Obama: All in The Company (Part I and Part II) by Wayne Madsen of the George H.W. Bush and other CIA Rockefeller Republican plans with V.P. Nixon for Executive Action (regime change in Indonesia and a carefully career planned Barack Obama Jr from birth a potential plan for that.
